

I now know I will no longer believe one thing said on a national network news program! They are all talking with their own point of view and want to control my life for their own good.

The networks use to be my information base, but if they said a fire was coming I'd never believe them! This is the stealing of America with a pack of LIES!

I demand more out of those that want to represent me and my life! The Sinclair Broadcasting system needs to be bounced out of the public airwaves and it's stations taken back by the public, for the good of the public!!

They are broadcasting lies as the truth, which the unknown public thinks is the truth. This is an outrage! This must STOP! I've had enough of these sick control freaks trying to control my brain, which works well on its own!!

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of media consolidation.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our democracy. Instead of something produced at "News Central" far away, it's more important that we see real people from our own communities and more substantive news about issues that matter.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.
